# ABOUT BIMEX NORDIC

Bimex Nordic Commodity Trade Consortium.

- is an international commodity trade platform that was founded in 2020 in Copenhagen, Denmark. Our company is engaged in retail trade and wholesale supply of food and non-food products in Turkey, Latin America, and Asia. The company is a distributor of many Turkish and international brands. Bimex Nordic was created to take over the responsibilities of international trade and abroad supplies. Today Bimex Nordic has offices in Istanbul Ankara, Izmir, Copenhagen, USA, and successfully exports goods to Europe, Asia, Africa, and America. The range of supplied products includes more than 10,000 products.

# WHAT WE DO

- We provide services for the supply of any goods in an unlimited range and quantities
- We flawlessly carry out all customs and administrative formalities to provide the the best service to our customers.
- Deliveries are carried out in 20 and 40 ft containers. Also, delivery can be carried out by postal services, and cargo planes. Small-sized deliveries are possible.
- We control the goods and promptly inform the client of all changes at each stage of delivery.

# FROZEN FOOD

 *Bimex Nordic.*

## **BEREKET DÖNER (Shawarma) (HALAL CERTIFICATED)**

The daily production capacity of our factory is 60 tons in a single shift. As the largest doner production facility

in Turkey, we have set sail to grand targets by uniting our current experience and expertise with labor that constantly renews and improves itself. Since doner production is a busy business, the value we place on our employees comes from the priority we place on our job. Thus, our future targets are much bigger than ever. We started and continue striving for exquisite taste with an expert staff together with our production and inspection teams consisting of veterinarians and food engineers.

We are the first producer who received a halal certificate for ready-made döner production in Turkey

In addition to all our production processes being certified with the Food Registration Certificate and Food Production Licenses approved by the Republic of Turkey, Ministry of Food, Agriculture, and Husbandry,

we also became the first company that included “ready-made doner” in their official activity scope.

Again, we also acquired ISO 9001:2008 and HACCP certificates for a ready-made doner, another first in Turkey and added ISO 22000:2005 certificate to our quality standards certificates. In addition, we have succeeded in obtaining ISO 22000: 2005 Food Safety Management System, ISO 9001:2008 Quality Management Systems, ISO 10002: 2014 Customer Satisfaction Management System and OHSAS 18000:2007 Occupational Health and Safety Management System certificates.

Our company, with a constant innovation culture, continues to constantly renew and improve itself with both

its products and business models. Bereket Döner, the first ready-made doner producer of Turkey, produces and offers other doner types than Meat and Chicken Döner, such as Salmon Doner, Turkish Sucuk Doner and Turkey Doner. Our dairy production facility in Niksar in the province of Tokat, prepares on one hand products

for our doner production facility and on the other hand, offers local products such as natural yogurt, ayran, butter, and cheese, which our nation misses.
