ECO logic

It is a logic of changing attitudes towards a more sustainable life. At its base there are **3 fundamentals** to consider in any choice:

- **Reuse**, to which we can contribute by avoiding the purchase of single-use products.
- **Recycling**, where the principle is that the end of one product is the beginning of another and that each one of us can start this cycle.
- **Responsible consumption**, which we can practice by avoiding the purchase of products made of harmful materials, of doubtful origin or in excessive quantities.

Together we can make a difference and the time is now.

A partnership that makes us proud

Among many reasons for a partnership, we share with BODUM® the year of our foundation in 1944, a passion for design, functionality-driven innovation and values linked to sustainability and human respect.

The history of BODUM® begins in Copenhagen, Denmark. In the early years, Peter Bodum comes into contact with a vacuum coffee machine for the first time. Impressed by the taste of the coffee, he decides to improve the design and manufacture a product that is accessible to all, laying the foundations for the brand's success.

Today, the story continues to be written by his descendants, according to the same values, and ensuring that the group remains a 100% family business.

The history and reputation of BODUM®, has been built through iconic and revolutionary models in the panorama of homeware solutions. Today the brand has an in-house design unit, responsible for creating all products and keeping them true to its principles.

Currently the company is based in Triengen, Switzerland and has an industrial unit located in the city of Tondela in Portugal, where it manufactures a large part of its products.

It is with the greatest pride that we present the collection resulting from this new partnership, totally Made in Europe.

Enjoy the oldest european tea

Offering Gorreana is offering history with aroma.

Founded in 1883 and located in Azores, the Gorreana tea factory is the oldest in Europe. The same family has been managing the planting area of 45 hectares for about 5 generations. Gorreana teas represent a union of taste, health and ecology.

Gorreana teas have worldwide recognition and are ranked as some of the best and purest teas in the world.

Black tea

The black tea Pekoe has a very strong and aromatic flavour. It is produced from the plant's second bearing bud. Due to the strong oxidation of Camelia Sinensis leaves, this tea displays a reddish and dark color and it also contains antioxidants, neuro-stimulants and caffeine.

Green tea

Green tea is rich in tannin and has a smooth taste. This tea has great anti-oxidant and slimming effects, anti-cancer and anti-aging propertie.
